

Lead Mill Technician – Nights TWO OPENINGS!

Our History:

Since 1991, Quality Roasting has been meeting the demand for high quality soybean products in livestock diets. In 2000, we developed Exceller Meal®, an expeller soybean meal product that is high in bypass protein and the ingredient of choice in high performing dairy cattle rations. In 2018, Quality Roasting began producing Exceller Oil®, an all-natural, food-grade vegetable oil for human consumption. Today, we process more than 14M bu of soybeans annually, produce 350,000 tons of Exceller Meal® and 15M gallons of soybean oil each year, and employ more than 50 team members at our three facilities – Valders, WI, Owen, WI and Reese, MI.

Our Culture:

At Quality Roasting, people make the difference. By joining our team, you become an important part of building our future, and we invest in you to help build your future. We believe in teaching, training, and supporting you to achieve your greatest potential. We listen and empower you to make a difference. Our culture fosters teamwork; ensures your safety; and embraces diversity, equity, inclusion and belonging. In other words, you come first, and we demonstrate the care and value that we have for people in everything we do.

Position Summary:

As a Lead Mill Technician, you will take the lead during your shift to ensure the efficient operation and maintenance of our soybean milling equipment that produces high quality feed grade soybean meal in our Safe Feed/Safe Food Certified facility. This lead position involves managing the entire milling process during your shift, being a mentor to team members, and ensuring the efficient production of high-quality feed-grade soybean meal. As a leader and experienced manufacturing technician, you will be expected to drive continuous improvement, optimize operations, and maintain the highest standards of quality, safety and efficiency. With a strong mechanical background, this lead position offers an opportunity to identify opportunities and train others in troubleshooting minor to complex issues and maintenance interventions and ensuring the team's adherence to safety protocols and Good Manufacturing Practices (GMP).
